**At The Country
Peddler,
you'll experience
shopping of days gone
by!**

What a fun place to shop! Country Peddler Antiques and General Store is the antique shop even your kids will love.

Twenty-Five years ago, long-time friends, Jeaneen Cobourn and Debbie Denton envisioned a cozy, old-timey country store in a rural area close to home, where people could enjoy relaxed shopping and just stop in to visit. They opened the doors on Depot Street and have watched their little retirement business become a local hidden treasure.

The Country Peddler continued...

Over the years, so many customers have become cherished friends, children who used to run in clutching a coin for their favorite piece of candy, now bring their own children to do the same. Grandchildren used to play dress-up in the back, neighborhood kids have been able to play store and learn to use the cash register.

In their younger days, Jeaneen and Debbie organized Campobello Days which were full of music, food, animals and fun. They also organized the 1st Saturday Trade Day with flea market tables all over the yard, along with J.W. Lawrence's book signings, open houses after the Ladies Auxiliary Christmas Home Tours and many more events.

You may have driven by and wondered "What's in that store?" Stop by anytime for a visit. You are always welcome.

"The General Store" used to be Campbell's Groceries and Feed in the 1950s. Now, it's full of hard-to-find items as well as antiques...old fashioned candies, wicks and specialty bulbs, oilcloth, Briwax, wonderful gifts and Leanin' Tree greeting cards, Nora Mills grits and cornmeal, Rawleigh salves, Watkins liniment and Happy Home Flavors. If you need waxed lips, chocolate Band-Aids, a jack-in-the-box, a sheriff's badge or a hillbilly joke gift, then this is the spot. Grab a cold drink from their old-timey Coke machine and enjoy the feeling of simpler times.

"The Corn Mill", where Mr. Splawn used to grind corn, is packed full of farmhouse antiques and the unusual. On cold days, there is often a fire in the pot belly stove. Stop and play a game of checkers while you are there.

In days gone by, "The Diggin' Barn" has housed auto parts, a rug making workshop and a warehouse. Now, it's full of old tools, wood, doors, mantels, furniture, knobs and pulls, etc.

When you are in an exploring mood, stop to wander through all three buildings. You are in for a treat!
